JBT Commander 15i

Cargo Loader

The Commander 15 Standard cargo loader handles all aircraft loading needs. It has a field-proven convey system that reliably and precisely positions and transfers loads - including side shift and rotation. Commander 15 loaders are designed and built with leak-resistant hydraulic systems, choices of power options, and a variety of added features. The Commander 15 Standard has the following features:

- 7,000 kg (15,500 lbs.) lift capacity
- Propulsion Speed of 11 km/h (7mph)
- Swing-out engine module
- Stand-up operator's platform
- Powered operator's platform adjustment
- 6 rows HeliRolls on bridge
- The Commander 15 Standard can service these aircrafts:
 - Main Deck – 707, 727, 737, DC-8, DC-9, BA146
 - Lower Lobe – 747, 767, 777, MD-11, DC-10, L-1011, A-300, A-310, A-320, A-330, A-340
